VESIS SIS Organization Attendee Information

Infinite Campus

Infinite Campus is a comprehensive, Web-based K-12 student information system (SIS) with real-time access to administration, instruction, communication, curriculum, reporting and analysis, data warehousing functionality and more. For 20 years, Infinite Campus has successfully implemented its solutions for customers of all sizes. As the largest American-owned SIS, Infinite Campus applications manage 6 million students in 43 states. Infinite Campus customers range from school districts with fewer than 100 students to those with more than 100,000, as well as regional consortia, state departments of education and the federal government. Infinite Campus District Edition is a Single System Solution that gives districts the confidence to partner with a single vendor to meet their goals. Campus tools provide the core functionality essential to reducing costs and creating a cohesive district. Our Premium Products work seamlessly with Campus SIS to maximize data accessibility and eliminate third-party vendors."

Follett

Follett School Solutions is the integrated educational technology solution provider that more than half of America's school districts trust to support staff and engage students in today's digitally rich learning environment. Follett's digitally powered technologies help districts more efficiently and cost-effectively manage student data, traditional and digital educational resources, provide digital learning environment tools focusing on student achievement and make confident decisions based on quality academic data. Powerful, integrated solutions enable Follett to support today's collaborative learning community and empower 21st century learning and discovery.

Sungard

SunGard K-12 Education software solutions serve one out of six students nationally. Offering Student Information, Curriculum and Assessment, Special Education, and Financial and Human Resource Management, our software products can be deployed to work together or implemented as powerful stand-alone systems. Experience the benefits of working with a single vendor and a fully integrated solution. Call 866-905-8989 for a demonstration, or visit sungard.com/K12 today!

Pearson

Pearson is a multi-national company providing consumer publishing, business intelligence and education solutions. Pearson's presence in Virginia is most recognized as being the predominant provider of student information systems with its flagship solution PowerSchool. Pearson is also an industry leader in providing instructional and curricular products in the form of textbooks (both print and digital), online learning systems, RTI management, virtual and blended classroom solutions, instructional management systems and educator evaluation systems. Here are some Pearson titles you might recognize: PowerSchool, Schoolnet, Pearson Inform, SuccessMaker, Gradpoint, Connections Education, enVisionMath, ReadingStreet, iLit, digits, aimsweb, WriteToLearn, ACT Aspire. And many more. We will be available at VESIS to talk to you about your current experience with PowerSchool, but also to discuss other educational needs you might have. Our Virginia team includes: Melissa Haney (Melissa.haney@pearson.com), Matt Robeson (matt.robeson@pearson.com), Mitch Mitchell (james.mitchell@pearson.com), Loretta Pressnall (Loretta.pressnall@pearson.com), Kristine Wilkinson (Kristine.wilkinson@pearson.com) and Peggi Moon (peggi.moon@pearson.com).

Edupoint

Edupoint Educational Systems is singularly focused on providing well designed, technologically advanced student information management systems that empower every K-12 stakeholder with the tools they need to do their part to help improve student achievement. The Synergy® Education Platform begins with the strongest student information system in K-12 – Synergy® SIS – and leverages integrated modules for learning management, assessment analytics, curriculum management, online registration, and role-based mobile applications. These integrated solutions, including Synergy® Special Education – a comprehensive special education data management system – are used by thousands of schools to manage millions of students across the country.
